

Why is the sky blue? What makes a balloon float? Why cant I see in the dark? You can discover the answers to these questions and more with The Everything Kids Easy Science Experiments Book. Using easy-to-find household materials like soda bottles and flashlights, you can build bubbles, create plastic--even make raisins dance! All of the experiments are kid-tested and educational--but more importantly, theyre tons of fun! These quick and easy experiments help you to: Explore your five senses Discover density and sound Delve into seasons, life cycles, and weather Investigate electricity and light Study the solar system and landforms Examine matter and acids/bases This is the perfect book for a rainy Saturday, a lazy vacation day, or even after school. Youll have so much fun conducting the experiments, youll forget that youre actually learning about science!
